**Founder, CEO, VP Engineering**

Blackfire Research Corp (sold to Roku Inc.)

2005 – Present · 15 yrs

San Francisco, California

Founded and grew Blackfire, a provider of advanced smart home wireless technologies, to become the market leader in solutions for smart devices in the connected home for streaming low latency audio and video, reliably, over wireless networks. Major consumer product customers include HTC, Pioneer, Sharp, TCL, Onkyo and Harman Kardon with over 5 million units shipped.

Smart devices included smart phones, smart TVs, smart audio, and other IoT devices such as sensors & controls. We redesigned the underlying network transport protocols to address WiFi issues and produced end to end solutions and software and hardware sub components.

**CTO & VP Engineering**

Savi Technologies, Inc (sold to Lockheed Martin)

2000 – 2005 · 5 yrs

Sunnyvale, California

Created a global wireless IOT platform and network of advanced wireless edge products for commercial, industrial and defense applications at Savi, a venture backed startup. This allowed visibility and management of global supply chains of goods and equipment via our smart wireless sensors and data centers with real time business processing software.

I led a worldwide engineering organization that designed a suite of feature rich wireless IOT products and shipped millions of these units for very demanding commercial, industrial and defense environments. These products grew our markets and revenue 4x enabling the sale of Savi to Lockheed Martin in 2006

**VP Engineering & Co Founder**

US Wireless, Inc. (Nasdaq 1999)

1996 – 2000 · 4 yrs

Invented an innovative cellular wireless technology for analyzing cellular radio signal propagation and applied it to cell phone location based services applications in dense urban environments. US Wireless reached a market cap of ~\$200M on NASDAQ.

Built cellular radio receiver systems, software and NOC for real time data analytics on cellular (CDMA, TDMA) wave front data. Built engineering team from the ground up and created the product from initial concepts and various technology ideas.

[Given \(2\)](#)**Marisa Lomask**

Professional Technophile

February 5, 2019, Ravi managed Marisa directly

Marisa led Blackfire's marketing activities in its early years. She crafted the marketing strategy, the story line and launched and managed all aspects of our marketing campaign. This included messaging, sales material, online presence, social media, everything to do with trade shows and our PR activities.... [See more](#)

**Bruno Skracic**

Simplifying complex things

November 12, 2010, Ravi was senior to Bruno but didn't manage directly

Bruno is one of those rare people that you can rely on to get a difficult job done. Whenever there were projects that were difficult in terms of management, technology and/or personnel, Bruno was always the right person to pick to lead the project, unravel the difficulties and get it done
